The Course, to teach students how to capture, restrain and translocate wild animals for breeding and conservation reasons, has been running since 2000 and Nicky is now working with game reserve owner Paul Gardiner and vet Dr Will Fowlds. Nicky said ‘You can imagine me coming back and teaching students about some of the animals I captured, and hanging out of helicopters and them all saying ‘Can I come?’’

Final Year Cambridge Vet Students, Thom Jenkins and Nadia Alnaimi, were involved in some hair-raising situations. From capturing a herd of 12 zebra in order to move them to another reserve, to draining an abscess in a buffalo, the experience they gained was so unlike anything they would have experienced in the UK that they both found it an incredible opportunity, as Thom says ‘You are getting up close and personal with some of the most amazing species in the world.’

As part of the series Thom and Nadia were filmed taking part in a programme to microchip white rhinos and their horns, in an attempt to curb the thriving black market trade in rhino poaching. Every 18 hours a white rhino is poached for its horn. The animals are sedated and literally defaced in order to get as much of the horn as possible, which leads to an agonising death. With myths surrounding the medicinal properties of rhino horn each kilogram has a street value of £50,000, making it more valuable than heroin or gold, yet the medical worth is utterly useless. Nadia says ‘You can't understand why people would do it. It's a really horrific issue.’

Nicky says ‘The Save the Rhino campaign of the 1970’s was one of the biggest conservation success stories ever, but now rhinos are being poached at such an alarming rate we are getting back to the levels where we were. They are now officially classed as ‘endangered’ and if they continue to be poached the numbers will become critical.’ Thom adds ‘When you see them up close you realise what amazing animals they are and you have a real urge to preserve them.’

Their experiences with the Game School have led Thom and Nadia, along with other students on their course, to establish Team Rhino to raise awareness of the cause and to support Save the Rhino with its anti-poaching methods. ‘You can learn more at www.teamrhino.co.uk – you can also help The Wilderness Foundation make a noise by following the link on Team Rhino’s website to sign the petition that will be presented to international governments.

Cambridge Veterinary School continues to send students to the Wildlife Game Capture Course which not only gives them fantastic opportunities but is hugely beneficial to the animals they see, whether it be relocating animals and herd health and welfare in game parks or providing the pets of local people with free veterinary care in clinics. It is a fantastic initiative and as Nicky says ‘The course gives the students an experience of a lifetime and the ITV programme was a fantastic opportunity for people outside Cambridge Vet School to see just what our students are capable of!’
Thanks to your generous support the Trust continues to go from strength to strength. During the last year we received incredible donations from many individuals and groups which have enabled us to purchase over £125,000 worth of urgently needed equipment for all areas of the Hospital. We continue, with thanks to generous benefactors, to support posts in Small Animal and Farm Animal Medicine as well.

Raising funds has never been more difficult but you continue to amaze us with your support, generosity, ingenuity, bravery and sheer hard work! While many of you support the Trust’s own fundraising events, your individual initiatives continue to be awe inspiring and terrifying in equal measure! As we are trying to get our local fundraising groups up and running, we hope you may be inspired to start a group locally, hold an event or undertake a challenge to raise funds for us. Whether you want to hold a coffee morning or a bake sale, or fancy a bigger challenge like organising a sponsored walk or a Ball, we are always keen to listen to your fundraising ideas and help you in whatever way we can – we are only a phone call away so please get in touch!

I hope you enjoy reading about the most recent year in the life of the Trust as much as we have enjoyed living it! We really cannot thank you enough for all that you do to help us – without your support Cambridge Veterinary School and The Queen’s Veterinary School Hospital would not be what they are today.

Liz Smith
Fundraising Executive and Newsletter Editor

Endowment Fund

In an exciting new era for the Trust a recent legacy has enabled us to establish an Endowment Fund. With this initial gift our aim now is to gradually build the capital held so that, in the future, the funds generated will supply a steady and dependable source of charitable income.

Along with expendable legacies, the Fund will be available for individuals who wish their gifts to be giving in perpetuity.

To find out more about this fantastic development contact Liz or Katy in the Trust Office on 01223 337630.

Living Legacy

Give during your lifetime and we can claim gift aid!

While many of the gifts we receive from Wills are Residuary Legacies (the residue of your Estate after your debts, expenses and other legacies have been paid), Pecuniary Legacies (the gift of a set sum of money) also play a huge part in future funding of the School.

If you are thinking about leaving a Pecuniary Legacy to the Trust there could be a way of making this gift go further. If you are a tax payer and you are able to donate your cash gift to us during your lifetime, either as a one off gift or spread over a number of years, we would be able to claim Gift Aid on it. At the current rates – currently 25p for every £1 donated – we can make your gift go further! If you are a higher rate tax payer, you can benefit yourself!

To find out more, or to discuss leaving a Living Legacy to the Trust, or for a copy of our Legacy Leaflet, contact Liz or Katy on 01223 337630.

Is your Friend’s subscription due?

The current membership rates are:

- Club, Society or Company Membership: £200 p/a
- Club, Society or Company Life Membership: £1,000
- Individual Life Membership: £300
- Family Membership: £50 p/a
- Individual Membership: £30 p/a
- Senior Citizen or Student Membership: £15 p/a

If you would like to take out a banker’s order to cover your subscription, or to make a donation, please complete the banker’s order form on the back of this issue.
The Queen’s Veterinary School Hospital Wish List

With your astounding support, we have been able to purchase £125,000 of urgently needed equipment for the Hospital over the last 12 months. Your generous donations have enabled us to buy:

Rubber stable mats; an equine ECG machine; a ligature vessel sealing generator; microscope lenses; a gyro fluid hanger installation kit; an oncology treatment table and mat for chemotherapy; anaesthesia syringe drivers; a Doppler machine; a cannula set for shoulders; a wall mounted anaesthesia machine; a fluid pump; a diathermy unit; an operating table for small animal theatre and an intravenous fluid warmer.

We are very grateful for all of your support and Hayley Carne, Acting Senior Theatre Nurse, says of the new equipment for the small animal theatres: ‘We would like to thank the donors who enabled us to purchase a new operating table and diathermy sealing unit. These items have improved our efficiency and allowed us to improve the service we can provide to our patients.

We are now able to increase our capacity and have the ability to use the vessel sealing unit in an additional theatre which has enabled us to treat more pets.

Many thanks on behalf of all of our users – staff, students and patients – in the Surgery Department.’

Donor recognition

Every donation – no matter how large or small – really does make a huge difference to our work. We welcome the chance to acknowledge the generosity of our benefactors and are pleased to discuss recognition opportunities with you. Donor recognition will be subject to donor wishes as to confidentiality and donors requesting anonymity shall, of course, have their wishes respected.

Any monies in excess of that needed for a specific Wish List item will be put towards other Trust projects.

Funding of the Wish List has been a huge success and we couldn’t do it without your wonderful support. Given the huge success the Hospital is keen to update the list and the current requirements are:

### 72 Hour Cycle Relay
Land’s End to John O’Groats

In July 2012 16-year-old Konnor Bracher-Walsh is setting off to cycle with his uncle Dug from Land’s End to John O’Groats. The legendary ‘end-to-end’ is a 960 mile ride through some of the most challenging and beautiful scenery in the UK. They aim to complete this relay in 72-hours and believe that this challenge has never been attempted before.

During the ride Konnor and Dug want to raise as much money as they can for their chosen charities, The University of Cambridge Veterinary School Trust and Go Commando.

The ride will start on 7th July from Land’s End. Konnor and Dug will ride around the clock in relays of six hours and arrive in John o’Groats three days later. Two crews made up of members of The Royal Marines and Maggie, Konnor’s mum, are making the journey in support vehicles to assist the riders.

Konnor says ‘For a number of years I have been involved in fundraising for The University of Cambridge Veterinary School Trust as part of The Solent District Dog Display Team and Training Club, who have raised a staggering £145,000 for the charity since 1983. This money has helped to fund equipment and facilities at The University of Cambridge Veterinary School’s referral hospital which not only treats thousands of animal patients from all over the UK each year, but helps train the veterinary surgeons and specialists of the future.

Although I am taking a break from the Display Team this year due to other commitments - namely my GCSEs - I wanted to continue fundraising for the Trust and, as I have always had an ambition to cycle from Land’s End to John O’Groats, thought this was the perfect way to do it!

‘I’m really pleased that my uncle Dug is joining me in this challenge and raising money for his own charity Go Commando which supports Royal Marines and their families. A Royal Marine himself, Dug is making sure that we don’t slack on the training! I’ve had great support from the New Forest Cycling Club, and my fellow members have been incredibly generous with their time - providing advice and coaching me for the ride. Royal Canin have been wonderful by providing sponsorship towards our trip.’

---

### Friends Open Day

Thirty friends of the Trust arrived at the Vet School on Saturday 22nd October to attend our 2011 Friends Open Day. After coffee, the programme kicked off with Dr Nicky Holdstock, Senior Lecturer in Equine Medicine, giving a fascinating talk about her work with wild animals in South Africa, and the steps being taken to deal with the increasing problem of rhino poaching. Mr Nick Bexfield, Wellcome Trust Research Training Fellow, spoke about liver disease in dogs, the subject of his PhD, and Mr Peter O’Malley gave an enlightening insight into his first few months in veterinary practice after graduating from Cambridge Vet School in July 2011 and taking up the one year position of Farm Animal Intern at the School. Professor Mike Herrtage, Dean of the School and Professor in Small Animal Medicine, rounded off the day by outlining some of the exciting future plans for the Hospital.

A great day was had by all!

If you are interested in joining our Friends scheme, or finding out more about it, contact Katy on 01223 764475.

### Car Parking

It was all change last year when the Rotary Club of South Cambridge took over the organisation of the Charity Car Parking Days – courtesy of the University’s Downing Site in central Cambridge – during the run up to Christmas.

On Saturday 3rd December 2011 the day was held for the benefit of the Trust and Katy and Liz from the Trust enjoyed some winter sunshine as they helped the gentlemen of the Rotary Club with the event. In January the Club presented a marvellous cheque for £1,500 being the proceeds of the day. We are incredibly grateful for the Club’s support and look forward to welcoming some of the members to the Veterinary School in the not too distant future to see for themselves how their donation has helped us.

If you are interested in holding an event to raise funds for the Trust get in touch! We are happy to discuss your ideas and offer advice and support in any way that we can.
The sky's the limit!

Following a visit to Wellington Country Park, Berkshire, on May Bank Holiday to see the Solent District Dog Display Team in action, Liz and Katy from the Trust Office were delighted, once again, to be asked to join the Club and Team members on Friday 9th December 2011 at their Christmas party. As always the evening was great fun, with many well deserved awards and prizes being handed out, including June and Pete Cooper being named fundraisers of the Year, which they rightly deserved!

During 2011 more Club members than ever had taken on individual challenges to help raise funds for the Trust. Dennis Wellman arranged another Fishathon at his club, Newlands Angling Association, and Park Angling Association donated a wonderful gift for the second year in a row, while Marcella Dennis and Michelle Orchard astounded and terrified us by jumping out of a plane, not once, but twice!

The Trust were delighted to join the Club at their party and would like to thank everybody who contributed to the £13,750 raised for the Trust during the year.

Horse Sense

Fifth year veterinary student, and the Trust’s student representative, Peter Moore returned home to Northern Ireland last summer to organise a sponsored horse ride in aid of the Trust, along with his cousin Ian Gault and Ian’s partner Gail Baillie.

The ride was held on Sunday 3rd July at Shane’s Castle, Antrim, by kind permission of the O’Neill family. Thirty five riders and horses were given the opportunity to hack seven or ten miles through the beautiful grounds of the private estate, and raised £470 for the Trust. The money has purchased two sets of rubber mats for Merton Hall Farm, where the Vet School’s resident horses are stabled. These mats make the stables more comfortable while cutting down on the amount of bedding used.

We would like to thank the O’Neill family, the participants and their sponsors, Peter, Ian, Gail and everyone who donated prizes to the raffle.

Christmas Cheer

Following a visit to Wellington Country Park, Berkshire, on May Bank Holiday to see the Solent District Dog Display Team in action, Liz and Katy from the Trust Office were delighted, once again, to be asked to join the Club and Team Members on Friday 9th December 2011 at their Christmas party. As always the evening was great fun, with many well deserved awards and prizes being handed out, including June and Pete Cooper being named fundraisers of the Year, which they rightly deserved!

A DAY AT THE RACES

A fourth Race Day, in aid of the Trust, was held at Newmarket Racecourse on Saturday 27th August 2011. 150 guests joined us in the Paddock Marquee for a wonderfully entertaining day of racing and fundraising.

After a drinks reception and three-course meal our guests generously bid for some exceptional auction Lots. Mr Luke MacDonald from Cheffins Fine Art Auctions kindly gave his time to host the auction and very capably parted our guests from their money!

Among the wonderful array of Lots on offer were: two polo lessons donated by Haggis Farm Stables; afternoon tea at the House of Lords and a tour of the building with Trust Patron Lady Mary Broers; a unique opportunity to tour the Churchill Archives Centre at Churchill College, Cambridge, in the company of the Director; a personal tour by the curator, Dr Tim Upson, of Cambridge University Botanic Garden, followed by afternoon tea with Trustee Lady Gwen Borsiewicz at the Vice-Chancellor’s Lodge; dinner for two at the Athenaeum Club, Pall Mall, as guests of Trustee Mr Meredith Lloyd-Evans and his wife Caroline; a morning on the Newmarket Gallops and a traditional racing breakfast with trainer Mr James Fanshaw; and a night’s accommodation with breakfast for two people in the penthouse suite of the Varsity Hotel, Cambridge. Members of the race-going public were also able to join in the fun by bidding on fantastic Lots in a silent auction. The day was rounded off with a special concert by Peter Andre to celebrate the 25th Anniversary of Newmarket Nights, after which, as the crowds left the course, our volunteers armed with buckets were able to relieve many of them of their winnings before they went home!

We would like to thank all of the people involved in making the 2011 Race Day a huge success. We will not be holding an event at Newmarket Racecourse in 2012, but watch this space for future years!

BIRMINGHAM HALF-MARATHON

On Sunday 23rd October 2011 Senior Radiographer Julie Sales took part in the Bupa Great Birmingham Run. Julie completed the 13.1 mile half marathon in an amazing 2 hours 23 minutes and donated her sponsorship money jointly to the Trust and Alzheimer’s Society. We are very grateful to Julie for her support and to all of her friends and family for generously sponsoring her.

Quiz Night and Auction

The University Social Club provided the venue for another fantastically fun Vet School Quiz Evening – this year teamed with the Students’ annual Auction of Promises – to raise funds for the Trust.

Small Animal Wing Nurse, June Peacock, once again donned her quizmaster cap and came up with a selection of interesting, varied and, quite frankly, impossible questions for the assorted teams. Team Farmer beat the competition with their astounding knowledge of chemistry, one word James Bond film titles and obscure cartoon characters.

The auction was a showcase of the talents of our staff and students alike. Senior Lecturer in Veterinary Pathology, Fernando Casas, offered to cater an authentic Mexican meal for four, fifth year student and talented artist Ben Wright agreed to produce a portrait of the winning bidder’s pet, while the Cambridge University A Team donated a polo lesson for three people.

Out of the twelve Lots the most eagerly anticipated of the night was an offer for eight ladies to spend an evening being wined and dined by the Vet Student’s men only drinking society, The Cambridge Stallions! A group of eager young clinicians and nurses pooled resources to annihilate the competition. To be honest we were not sure who should have been more scared…

We would like to thank all of our colleagues who donated their time, effort and skills to make the evening a huge success. The quiz, auction and a raffle raised a magnificent £715 and has purchased a wall mounted anaesthesia machine and a fluid pump for the Hospital.
On Saturday 4th June 2011 Ben and Adam Walker and friends undertook a 25 mile cycle ride around Grafham Water in Cambridgeshire.

Proud mum, Sarah, told us:
‘Ben and Adam chose to raise funds for the Trust because Cambridge Veterinary School had treated our Springer Spaniel, Monty, twice. Monty’s first operation was to remove a grass seed trapped in the cavity of his chest, his second surgery was to take away the membrane of his heart which had been damaged by a tumour. The staff were so caring towards Monty, and to us, that Ben and Adam said they wanted to do something to raise money to help other Cambridge Veterinary School patients. Sitting in the Hospital Reception we had seen some articles about fundraising and so contacted the Trust then, supplied with sponsorship forms and a healthy dose of enthusiasm, we set a date.

The day was lovely and warm and we all enjoyed the challenge! We rode well in excess of 25 miles and celebrated crossing the finish line with a BBQ – fun was had by all!’

In total 13 budding cyclists – 9 of whom were children – completed the ride and raised an amazing £500 which will go towards equipment for our Small Animal Unit. We would like to thank all of the cyclists who took part and wish them every success for their next ride. Thank you to all of their sponsors for raising such a fantastic amount!

In total 13 budding cyclists – 9 of whom were children – completed the ride and raised an amazing £500 which will go towards equipment for our Small Animal Unit. We would like to thank all of the cyclists who took part and wish them every success for their next ride. Thank you to all of their sponsors for raising such a fantastic amount!

On Sunday 17th April 2011 four runners took part in the London Marathon to raise funds for the Trust. Vet School alumna Suzy Robinson, enjoying her first year as a qualified veterinary surgeon, completed the race in 4 hours 37 minutes, while Aimee Garner and Richard Duplock, running for us under the banner of Solent District Dog Training Club, finished in 4 hours 51 minutes and 5 hours 12 minutes, respectively. Our runners travel to the race from all over the country but our final runner, Karen Tabrett, really does deserve a special mention. Karen journeyed over 5,700 miles from her home in California to the race start! Finishing the race in 4 hours 42 minutes, Karen was able to team her visit to the UK with reunions with family and friends.

Aimee said after the event:
‘Like everyone else I am sure that there were best and worst bits! For me the worst parts were the relentless heat, a pain in my ankle and a bottle neck of people I seemed constantly stuck behind. However the best bits more than made up for it. Kids lining the route and demanding high-5s, the guy dressed as a toilet, the fire brigade hosing down the runners, epic views of Tower Bridge and Big Ben, crossing the finishing line and the feeling that I didn’t have to get up again at 5.30am to go for 15 mile runs! Would I do it again? Never say never...!’

Our thanks go to all of our runners for their determination and commitment and to their sponsors for their generosity. In total they raised over £4,500 for the Trust which is a fantastic achievement.

Our places for the 2013 London Marathon have already been filled, but if you are interested in sponsoring our runners, or taking part in the 2014 race, contact Liz in the Trust Office on 01223 337630.
Forthcoming Events

Konnor and Dug’s Land’s End to John O’Groats Cycle Ride
7th – 13th July 2012
See feature on page 4.
To sponsor Konnor contact the Trust Office on 01223 337630 or visit his page at www.justgiving.com/konnorbracherwalsh

Rotary Club Christmas Car Parking
December 2012
Support local charities by using the Downing Site Charity Car Park in Tennis Court Road, Cambridge, for your Christmas Shopping.
Site operated on Saturdays and Sundays throughout December.

Virgin London Marathon 2013
Sunday 21st April 2013
All of our places for the 2013 Virgin London Marathon have been filled. To sponsor our runners or to register your interest to run the 2014 race contact Liz on 01223 337630.

Classes of 1963 and 1973 Reunions
2013 Dates TBC
Get in touch with Katy on 01223 764475 for details.
